SUMMARY

I'm a passionate web developer with four years of experience building dynamic, responsive websites and systematic web applications. Proficient in full stack web development using python frameworks django, odoo, flask. I specialize in creating seamless user experiences and optimizing performance. My passion for coding drives me to stay updated with the latest technologies, and I'm always eager to take on new challenges that help businesses grow online.

WORK EXPERIENCE

Visit77 Travel Directory Application (Remote) **Jan 2025 - Present**

Working as a backend developer on a traveling tour project, responsible for API development and deployment. Utilized Django REST Framework for building scalable APIs, implemented Redis for caching, and used Celery for background task processing to enhance performance and reliability.
